Account team walkthrough

Dynamics User Accounts prototype · TEST DATA only

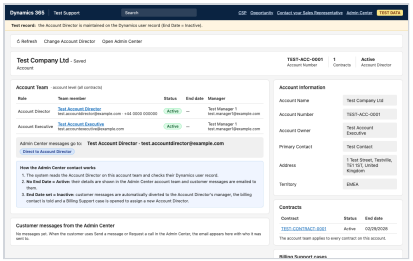

This guide shows how the account team in Dynamics drives who the customer can contact in the LinkedIn Admin Center.

1. The Account page lists the account team. Each name is a link to that person's user record.
2. The user record (End Date and Active Status) decides if the person is active or inactive.
3. Active Account Director: Admin Center shows their details, and customer messages go to them.
4. Inactive Account Director: messages go to their manager, the billing contact is told, and a Billing Support case is opened.

Videos (3 short recordings):
1. Account team click-through
2. Contact your Sales Representative
3. Inactive director diverts to manager

Live app: open the prototype (LinkedIn sign-in required) · Code: GitHub

1. Account page: the account team

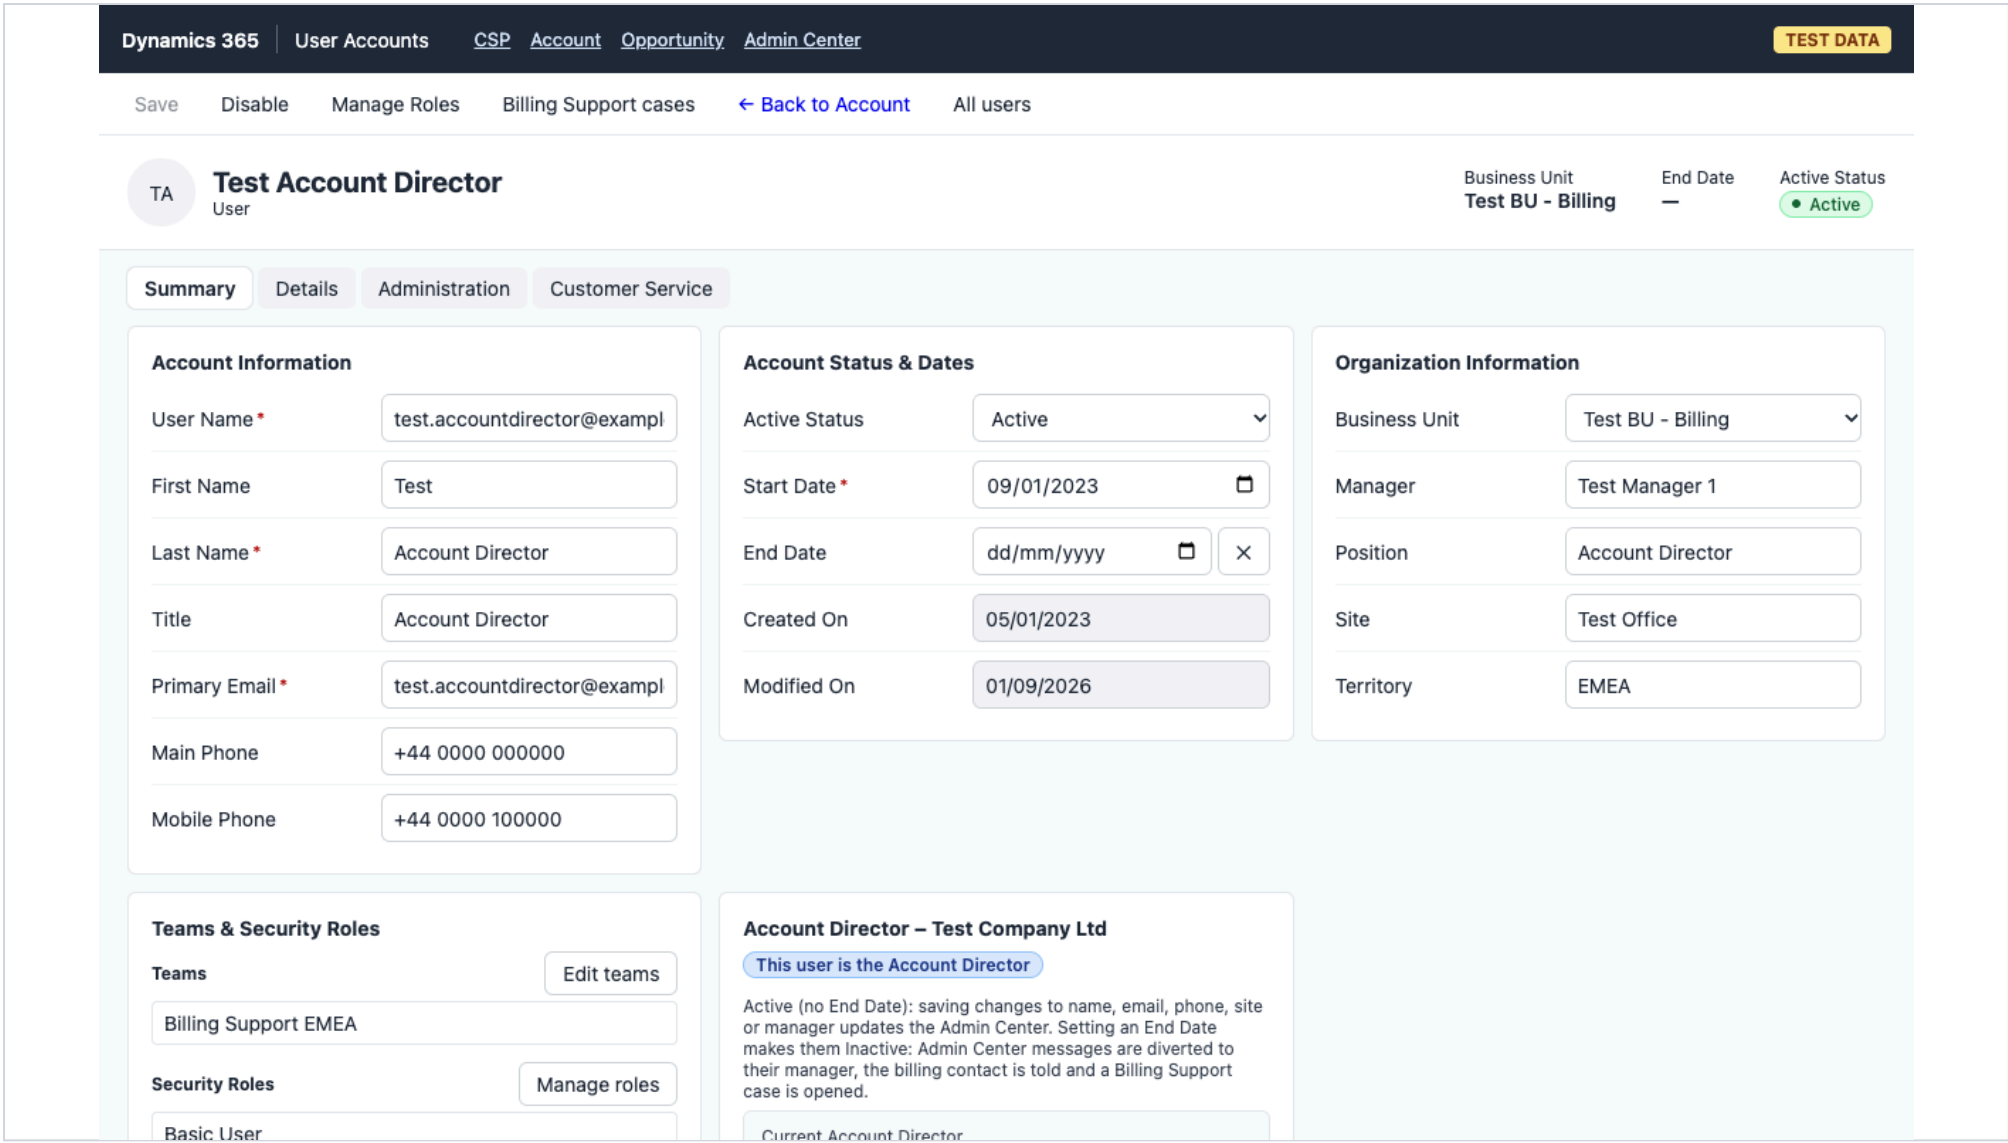

The Account Team table lists the Account Director and the other members, with status, end date and manager. Names are links.

Click a name to open that person's user record.

▶ Watch the video: 01-account-team-click-through.webm (opens in Chrome or Edge)

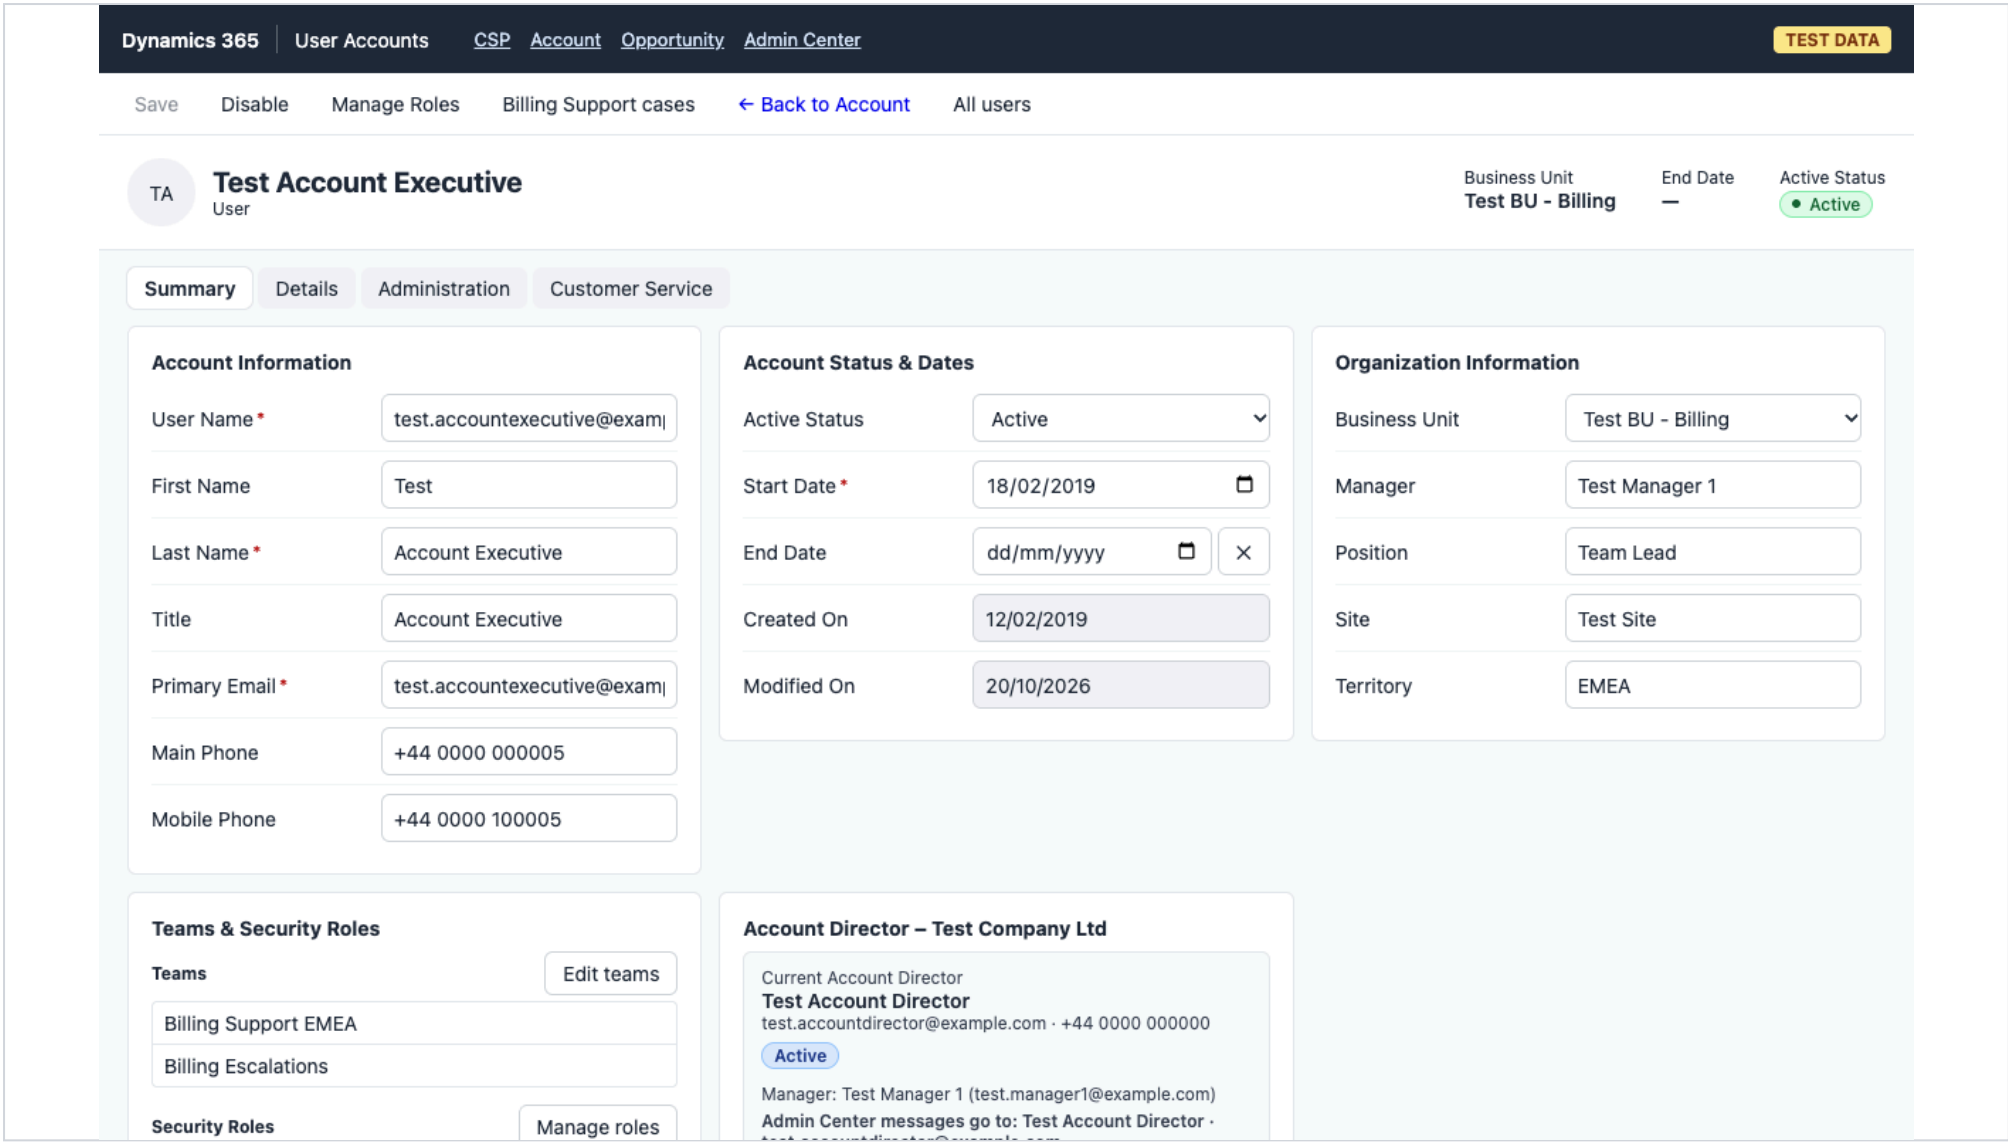

2. Click a name: only that user's record opens

Same layout as the Index page, showing only the clicked person. Buttons: Back to Account, All users.

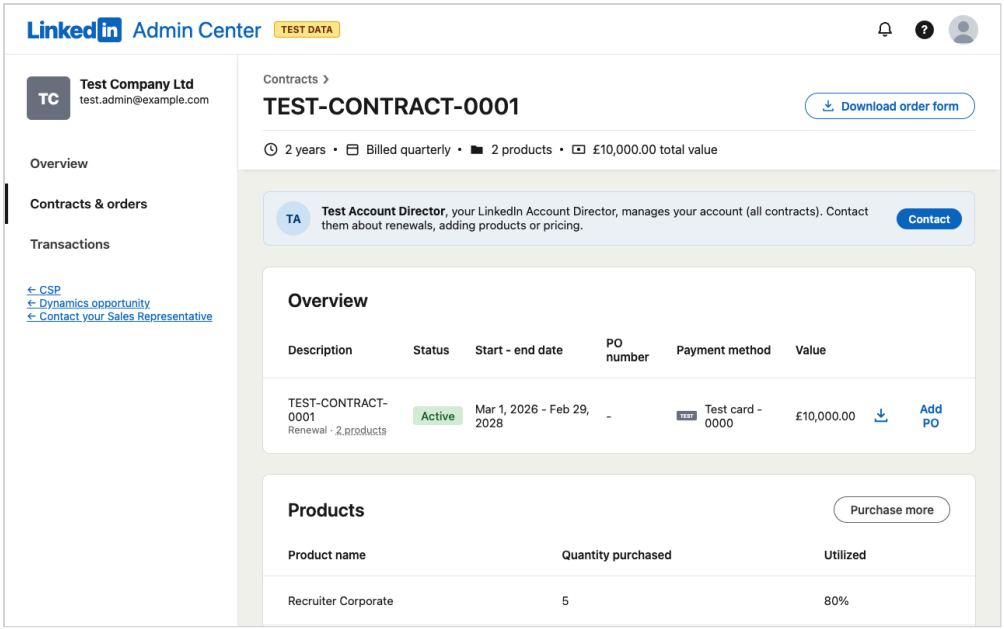

▶ Watch the video: 01-account-team-click-through.webm (opens in Chrome or Edge)

3. The Account Executive has a record too

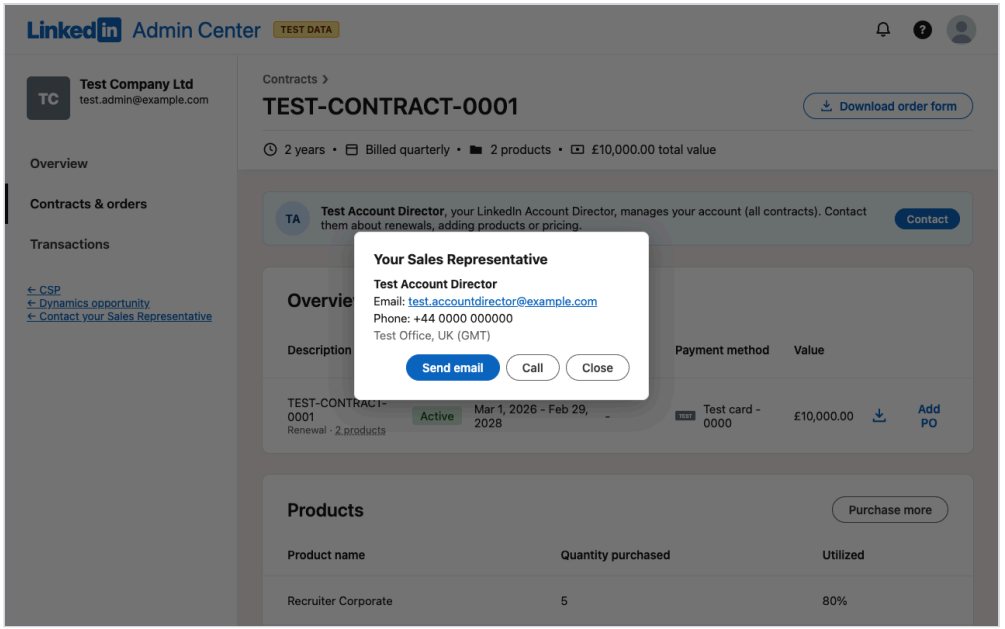

Other team members open their own record. Saving it updates their status in the team table and Admin Center.

4. Admin Center: Contact your Sales Representative

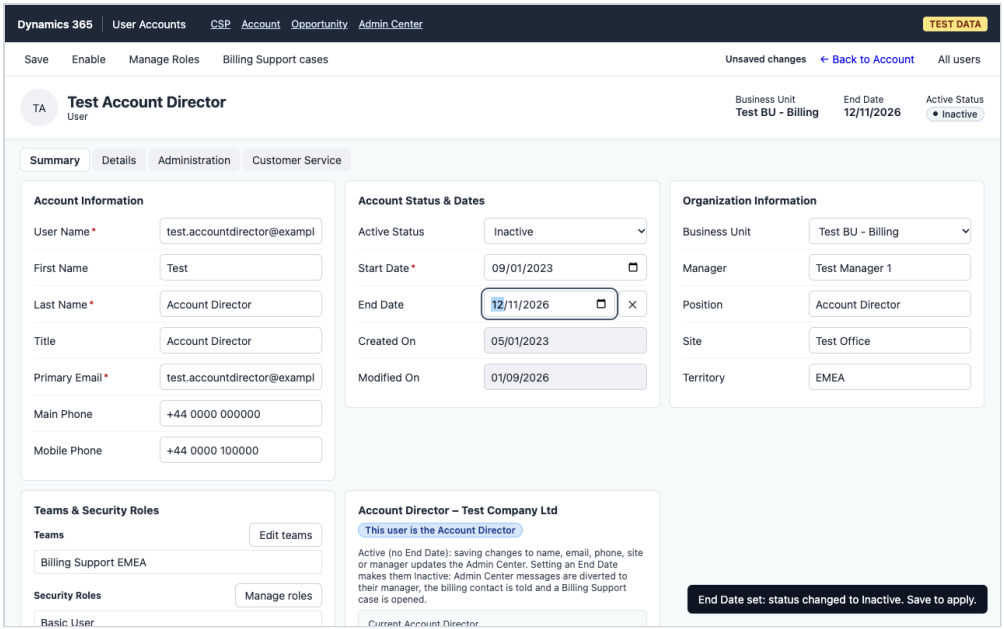

The Admin Center shows the Account Director, the Account Director's manager and the other team members.

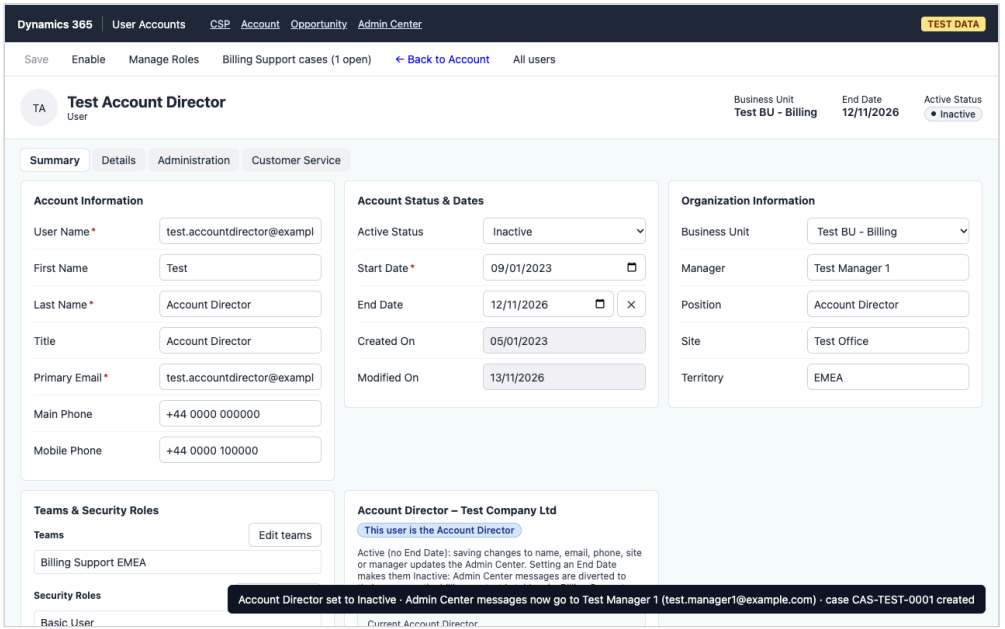

Clicking "Contact your Sales Representative" opens a popup with Send email and Call.

▶ Watch the video: 02-admin-center-contact-sales-rep.webm (opens in Chrome or Edge)

5. Make the Account Director inactive

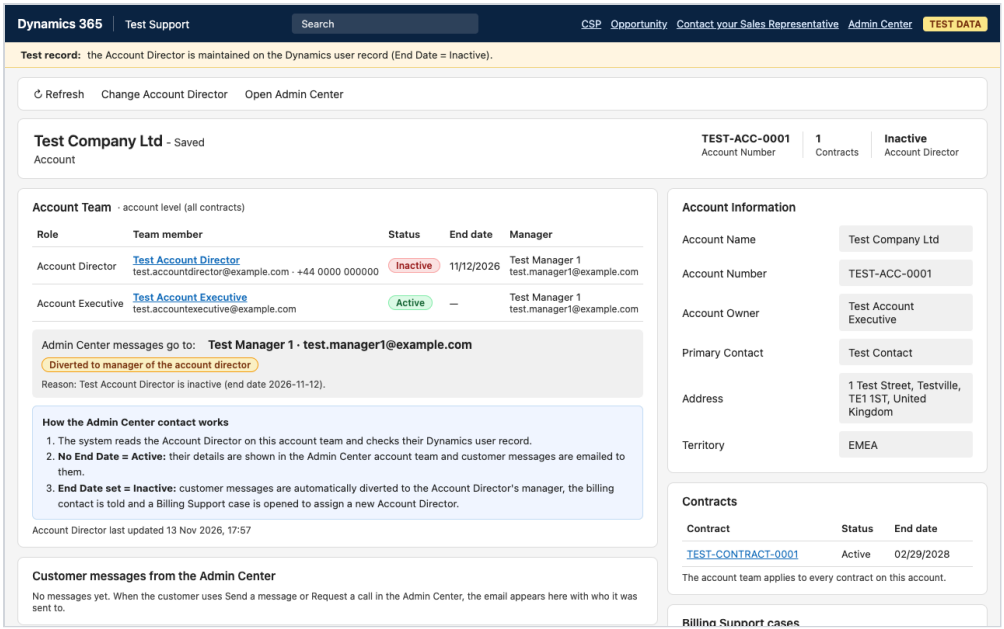

On the user record, setting an End Date changes the status to Inactive.

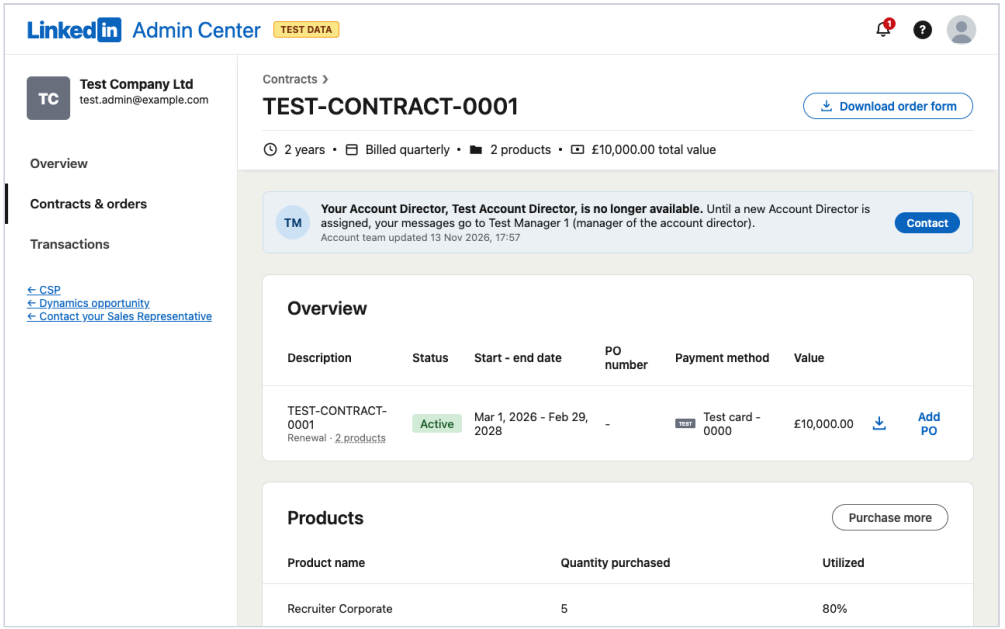

After saving, the Account Director shows Inactive and the Billing Support case is created.

▶ Watch the video: 03-inactive-director-diverts-to-manager.webm (opens in Chrome or Edge)

6. The result in the Account page and Admin Center

Account page: the Account Director shows Inactive and messages are diverted to the manager.

Admin Center: the banner says the director is no longer available and messages go to their manager.

▶ Watch the video: 03-inactive-director-diverts-to-manager.webm (opens in Chrome or Edge)

Page names

Page	Tab title
Sales Representative (user records)	Sales Representative - Dynamics 365 (TEST)
Account Level	Account Level - Dynamics 365 (TEST)
Opportunity	Opportunity - Dynamics 365 (TEST)
CSP	CSP - Customer Support (TEST)
Admin Center	Admin Center - LinkedIn (TEST)

Also in this version

- A director with a missing or invalid email is treated as inactive, so messages go to the manager.
- If sending to the director fails, the message is re-sent to the manager.
- All names, emails and numbers are fake test data.
